RATES OF ADVERTISING.

Newspaper proprietors generally, and especially of this sity, under the usages and regulations heretofore prevailing are called upon to perform more labor without remuneration, than any other class of community. The gratuitous publication of charity and religious advertisement, and communications, tributes of respect, obitairies, &c. &c., which can only be insected at a base out to the can only be inserted at a heavy cost to the proprietor, im-poses upon them a burden so onorous, that they feel called upon, in self-defence, to check the abuse, by making such publications a charge, to some extent at least, upon the par-ties more uncediately interested. In this they are but following the example of the press in other cities, impelled by a sense of its intrinsic propriety, and imperative duty to themselves. The subscribers have, therefore, united together in a mutual agreement, upon the to lowing specified terms or the publication of these as well as every sort of regular

business advertising.

TO ALL WHO VALUE THEIR SIGHT. Nasavillie, July 26, 1855. Mr. J. H. SERMONS-Sir: Lhave been using for one week the pair of Brazillan Speciacles that I burchased from you, and I do not be itate to say that they are by far the beat that I have ever used. I am unabled to read the finest print at tight by a dim light, without straining my eyes, whereas the spectacies that I have used heretofore used hart them, and I could not read with any satisfication. I consider your spectacles a great improvement upon any that I have ever eeu. Yours respectfully, i. M. FOGG.

Nasstville, July 27, 1855. Mr. J. H. SERMONS—Sir : After ten days constant use of the Speciacies obtained from you, I feel guarantied in testitying to their efficiency in restoring or refleving impaired vision. Previous to obtaining them my manuscript duties were performed with much labor to the eye, and often with pain; but since I have used your Brazilian Pebbles I have especienced nothing of the kind, but feel perfectly rejuvena-led. Whether relief proceeds from the pecunar form of the glasses or the material, or both combined, I cannot say. I prefer them to any glasses I have over used, and take pleasure in recommending them to the public. EGBERT A. RAWORTIL.

Namville, July 18, 1800.

Mr J. H. Samnoss—Dear Sir: After a careful examination and trial of your concavo-convex Spectacles, I cheerfully add my testimony to their superiority over all others.—They enlarge the sphere of frens, and thereby greatly relieve vision, without producing the unpleasantness greated by the convex form.

Very respectfully yours,

JOHN WATERS.

Mr. J. H. Spenous Sir: I have been using for several non-be a pair of your "Brazilian Pebble Spectacles," and believing they are the only kind I have ever seen capable of completely restoring vision, which has been impaired, to its primitive perfection, I take pleasure in recommending them to the public.

Very respectivity,

D. C. TOPP. From Dr. A. W. Hunt. Venson, Tenn., July 25, 1555. The planes you sent me suit my eyes well, much better than any I ever saw.

We, the undersigned, have used for some time Mr. J. H. emmone Brasinian Petble Spectacles, and have found them far superior to any others we have used. We cheermily recommend them to the public, A. W. HUTLER, JOHN D. WINSTON, M. D.
